Claim Rejections - 35 USC § 112

1. Claims 1-12, 16, and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 the phrase "the heel" and in claim 16 the phrases "the pump" and "the heel" lack antecedent basis rendering the claims vague and indefinite.

Claims 6, 7, 8, 11, and 17 are vague and indefinite and appear to only recite functional language without additional structural limitations and therefore it is not clear what further structural/method step limitations applicant intends to encompass.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3, 5, 6, 8-13, and 15-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Grim (5392534).

4. Claims 1-5, 7-12, and 19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lakic (6014823).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3728

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 4 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grim '534.

Grim '534 shows a shoe and method of using a shoe comprising a support portion (the outer upper and outsole, a first material (bladder layers) and a pump and conduit (see figures) substantially as claimed except for providing a second breathable layer. Official Notice is taken that it is well known and conventional to wear socks with footwear which would provide a second breathable material. It would have been obvious to provide socks in the shoe and method of Grim '534 to increase comfort, cleanliness, etc.
